TEACHERS CLOSE SESSION TODAY

MEETING CHARACTERIZED BY MANY SPLENDID TALKS.

W.M. OAKERSON URGES NEW CONSTITUTION

Says Old Draft Makes the Passing of Amendments Concerning Schools Difficult.

The second day's program of the county teachers' meeting began this morning at 9 o'clock. Two hundred and six teachers are enrolled at the present time.

Good talks were made this morning by Miss Julia Denny, principal of the Garfield school, Prof. G. H. Colbert of the State Normal school, C. F. Ross, principal of the Ravenwood schools, and C. C. Vickery, principal of the Conception Junction school. An excellent paper on "School Room Decoration" was given by Miss Edna Bonewitz, teacher of the B eight hgrade in the Maryville schools.

W. M. Oakerson, chief clerk in the state department of education at Jefferson City, made the principal address of the morning session. He talked for the new school constitution of Missouri. He said in part:

Rural Schools Neglected.

"The high schools, grade schools and rural schools of the country have all progressed and are far ahead of the school of forty or fifty years ago. But the grades are rural schools have been somewhat neglected because most of the attention has been given to improving the high school. The country schools have been neglected most of all. Therefore, the rural schools and what shall be done for them is the question.

"The schools are better now and the teachers are better prepared to teach. But are the rural schools meeting the rural needs as well now as they did forty or fifty years ago? Conditions are vastly different now. We must have a new constitution and a new educational code to meet the needs. We no longer want the antique code of education. Fourteen organizations have been brought together by the constitution committee and have signified their willingness to work for it.

Need Eight-Month Terms.

"We need an eight-mouths term for all of the rural schools and a capable teacher for each one. Salaries high enough to get a god one should be paid, and in return the teacher should prepare by studying the best methods of teaching. The boys should be given a course in agriculture and the girls one in household art. Both should receive instruction in manual training.

"Some will say, 'Why not amend the old constitution?' We have had three new constitutions, in 1825, 1865 and 1875. Each time the neds and requirements changed so much that amendments would be hard to understand. There has been so much change since the last constitution that we need a new one. There has not been an amendment since 1908. Some amendments are so difficult to understand and it is practically impossible to secure the passage of them. That is a reason for a new constitution.

Reorganization Necessary.

"There will have to be reorganization in the rural communities. There are too many inequalities in taxation at the present time. All the children belong to the state and are being brought up for citizenship. Every one should be given an equal chance for education. No matter whether he lives in a rich or poor district, one boy needs and is entitled to an education as much as another. We need a system of taxation whereby an equality can be reached.

"Again, we want longer terms for all the rural schools and teaches who are prepared to give an vocational training needed in that community where they are teaching."

Session Closes Today.

The afternoon program began at 1:30 o'clock, with an address by Leslie M. Dodds, superintendent of schools of Andrew county. Speeches were made by Superintendent J. L. Nierman of the Hopkins schools, M. N. Yetter, principal of the Elmo schools, and George Palfreyman, Jr., assistant athletic director at the State Normal school. The final address was made by President Ira Richardson of the State Normal school.

The meeting closes this afternoon. The rural schools begin Monday.

Active preparation for the reception of the evangelist, Charles Reign Scoville, who will hold revival services in Maryville, September 10 to October 9, will begin next week. The committee during that time must secure a location for the meetings, besides seeing to the erection of the tent and the seating accommodations for 2400 persons.

The committee in charge of the revival received a telegram this morning from E. H. Forsythe, director of music for the Scoville revivals, saying that he would arrive in Maryville Tuesday and be on hand to take charge of the choir rehearsals.

A committee of two persons will be appointed from each church to aid in the formation of this choir. These persons will meet at 2:30 o'clock tomorrow afternoon in the First Methodist church and will compile a list of those who can be called upon to take part in the singing. Then they will endeavor to interest these persons and to arrange the first rehearsal for 7:30 o'clock Tuesday evening.

SIDEWALKS ORDERED

CITY COUNCIL GRANTS PETITION OF 12 PROPERTY OWNERS.

SIX ARRESTS REPORTED

Police Judge Account Shows Small Number of Misdemeanors—To Collect About $1,000 in Poll Tax.

The city council held its regular meeting last night. Twelve sidewalk petitions were granted and these walks were ordered built.

An automobile tax measure copied after the state auto license law was proposed by Alderman James Smith. City Attorney Wright was instructed to prepare such an ordinance, which will probably be adopted at the next meeting of the council. The money derived from the tax will be used for street purposes within the city. Mayor Robey figures that $1,000 will be raised this way.

Yeo Brothers asked permission to move their pool hall from their location on North Main street to the building recently vacated by T. J. Parle, without securing a new license. They were granted the permission on the condition that it be not contrary to any ordinance. George Pat Wright, city attorney, will look it up, and if it is not against any ordinance they will move.

Frank Smart asked for a light at the west end of Fifth street at the railroad crossing. The street on the west side of the track has been opened up and the light will probably be placed at the intersection of the two streets. Also the coal shed will be moved back.

An ordinance was passed granting a sidewalk on the east side of the Mutz property, on Mulberry street from Ninth street to the bridge over the Wabash railroad.

William Armstrong was unanimously confirmed by the council as a member of the board of public works.

The police judge report shows six cases for the past month, and only two of these for drunkenness, the parties arriving in town in that condition.

Over $1,000 will probably be collected in poll tax this year. According to the report made last night $746 has been paid in. Every effort is being made to collect this tax, and a number of suits will probably be brought against those failing to pay.

The sidewalk petitions granted were for:

East side of Mattie street, north of Thompson street, in front of the Frank Ulmer property; east side of Mattie street, north of Jenkins street, owned by Frank Ulmer; east side of Mattie street, west side of lot 1, block 4, William Murphy place; south side of Thompson street, east of Laura street, property of Alva Maul; south side of Thompson street, north side of lot 3, block 20, the property of John Straugh; south side of Thompson street, west of Newton street, property of John Straugh; north side of Second stret, east of Vine street, property of Fred J. Yeomans; east side of Vine street, north of Edwards street, along west side of lot 8, block 19, and on the south side of First street, east of Main, property of William Everhart.

PARNELL AFTER LIGHTS

Officers of Maryville Electric Co. to Take Up Proposition With Town Board.

Richard Kuchs, president of the Maryville Electric Light and Power company and C. C. Hellmers, manager, were in Parnell this week talking with the citizens there regarding the running of their system from here to Parnell. The following is what this week's Parnell Sentinel has to say:

Those with whom they talked seemed to be favorably impressed with the idea that electric lights would be a good thing for the town and community.

Burlington Junction and Pickering, Clearmont and Ravenwood each have recently granted franchises for the Maryville system by almost unanimous votes and we believe Parnell can do the same. By this company we are insured a twenty-four hours' service every day in the year.

The gentlemen here Monday will probably meet with the town board at their next meeting and talk the matter over with them regarding the number of lights the town use.

The Sentinel is for electric lights and is willing to assist in any manner possible to get them.

"THE KILTIES" PLEASE

FAIR AUDIENCES GREET CANADA'S GREATEST CONCERT BAND.

Saxaphone Solos, Vocal Numbers and Scottish Dance Special Numbers On Excellent Program.

The "Kilties," Canada's greatest concert band, gave two performances in Maryville yesterday at the Empire theater. The afternoon performance was not so well attended as that of last evening, and neither performance was as well patronized as a band of such merit should have been.

Nevehtreless, those who were present at either performance could not fail to recognize the ability of the players. The program consisted of ten numbers, six of which were given by the band.

The hearty applause which these numbers received, together with the proficiency of the encores, attested the appreciation of the audience.

The bagpipe solo by Pipe Major William Smart was well received, as was also "The Highland Fling" which he did in the good old Scottish style. Will F. Newlan, conductor of the "Kilties," gave two saxaphone solos, which showed him to be a mastor of the saxophone as well as an able leader of the band. J. Coates Lockhart was on the program for a solo, "Rose of My Heart,' but before he got through he had sung four or five songs and told a number of clever Scotch stories. He proved to be a clever entertainer, appearing exceptionally well in his interpretation of Harry Lauder's inimitable Scotch songs.

STRIKERS AWAIT RESULT

Adamson Measure Passes House Easily —Senate Will Vote This Evening—Embargo Lifted.

Bulletin.

Washington, Sept. 2.—Grand chiefs of four brotherhoods this afternoon formally announced if senate passes bill orders for the strike Monday will be cancelled.

Special to The Democrat-Forum.

Washington, Sept. 2.—A dramatic attack on "coercing of congress" by railroad brotherhoods by Senator Sherman of Illinois today marked final debate in the senate on the legislation to prevent the strike. Despite the bitter argument precipitated by Shrman's vitriolic speech, leaders in the Senate were confident that the administration bill would pass the senate before the adjournment tonight.

Four brotherhood leaders conferred with the various leaders of both house and senate and prepared to revoke outstanding strike order just as soon as the eight-hour bill was agreed upon by the senate. The senate debate centered largely on the proposal of Underwood to empower the interstate commerce to regulate the wages and hours of labor. Leaders declared the Underwood amendment will be defeated.

The Adamson bill, as passed in the house last night by a vote of 239 to 56, with minor amendments, is the same measure which the brotherhood leaders officially declared would constitute a "satisfactory settlement" and prevent the strike.

The senate will take a vote on the bill not later than 6 o'clock this evening, it is expected.

Chicago, Sept. 2.—According to railroad officials embargoes on freight will be lifted by every road by the middle of next week.

WILSON MAKES FORMAL REPLY

PRESIDENT ACCEPTS DEMOCRATIC NOMINATION IN SPEECH.

LAUNCHES ATTACK ON C. E. HUGHES

Charges Republican Nominee With "Making Doupbtful and Conjectural Promises."

Special to The Democrat-Forum.

Shadow Lawn, Asbury Park, N. J., Sept. 2.—President Wilson this afternoon formally accepted the Democratic nomination for the presidency and made his first attack on Charles E. Hughes, charging that he was making "doubtful and conjectural promises of service. Also he predicted a new place among world powers for the United States and declared this nation could never remain neutral in the next big war. To prevent war, he advocated establishment of a league for enforcing peace.

The president, before the committee selected to notify him of his nomination and a large number of Democratic leaders, declared his belief that the people of the United States wish the Democratic party to remain in power because of the party's accomplishments and because the Republican party is "just the party that cannot meet the new conditions of a new age."

"I do not doubt that the people of the United States wish the Democratic party to continue in control of the government," he said. "They are not in the habit of rejecting those who have actually served them for those who are making doubtful and conjectural promises of service. Least of all are they likely to substitute those who promised to render them particular services and proved false to that promise for those who have actually rendered those very services."

The president said the Democratic party not only fulfilled its own pledges but has enacted legislation that the Republicans had promised to enact, but had neglected. He made a bid for support of the Progressives by asserting that "we have in four years come very near to carrying out the platform of the Progressive party, as well as our own, for we also are progressives."

Turning to the position of the United States today among the world powers and to the outlook for the future, he said that the United States could not remain neutral in the next big war. In doing so, he took the stand that "there must be a just and settled peace" before there can be any real peace in Europe.

"We here in America must contribute the full force of our enthusiasm and of our authority as a nation to the organization of that peace upon world-wide foundations that cannot easily be shaken," he continued.

"No nation should be forced to take sides in any quarrel in which its own honor and integrity and the fortunes of its own people are not involved; but no nation can any longer remain neutral as against any willful disturbance of the peace of the world. The effects of war can no longer be confined to the areas of battle. No nation stands wholly apart in interest when the life and interests of all nations are thrown into confusion and peril. If hopeful and generous enterprise is to be renewed, if healing and helpful arts of life are indeed to be revived when peace comes again, a new atmosphere of justice and friendship must be generated by means the world has never tried before. The nations of the world must unite in joint guarantees that whatever is done to disturb the whole world's life must first be tested in the court of the whole world's opinion before it is attempted."

The president's speech of acceptance was made from the steps of the simmer White House here, with his audience on the lawn around him. It followed the notification address of Senator Ollie James of Kentucky, chairman of the Democratic notification committee.

Turning in his speech to the international standing of the United States, the president upheld his Mexican pol-

CLOTH MADE BY AZTECS

Professor in Colorado Discovers That Cotton Was Raised and Woven by Prehistoric Race.

Special to The Democrat-Forum.

Dencer, Colo., Sept. 1.—Three thousand years ago cotton was raised in northern New Mexico and woven into cloth by prehistoric Aztecs. Also they made rope and twine, perhaps even thread, of cotton and of the yucca plant, known to an enlightened modern civilization as soapweed, or Spanish bayonet, and chiefly used by small boys for the manufacture of toy daggers.

The cotton cloth has been discovered in explorations directed by Earl H. Morris of the University of Colorado, acting for the American museum of natural history, New York. Mr. Morris began work on July 20 on a four years' excavation of the famous Aztec ruins on the ranch of H. D. Abrams, within an hour's walk of Aztec, N. M.

The discovery of the cloth, which has been found beyond doubt to be cotton, is amazing to scientists.

The cotton closely resembles the common upland cotton grown in the southern states today. Already the ranchmen in the San Juan basin are considering the feasibility of putting in cotton plants there.

3500 WOMEN RELEASED

New York District Attorney Has Freed Many White Slaves From Bondage—Men Arrested.

Special to The Democrat-Forum.

New York, Sept. 1.—Since the beginning of the war against white slavery by the police, District Attorney Swann and his assistant, James E. Smith, 3,500 women have been released from bondage., it was learned today Their freedom is a consequence of the flight of more than 500 men of the type of Yushe Botwin. The backbone of the system of trafficking women has been broken by the revelations of the last few weeks. Practically every woman who has resented the sharing of sin wages has carried her story to the district attorney's office.

At the present time the foundation is laid for the indictment of at least fifty of these parasites upon women.

From the material now in hand, it is known that these men have operated in groups, that in one instance as many as thirty men who lived on women's street earnings banded for mutual protection and for purchasing police immunity.

The residence property of Harry Mutz, located on the corner of Main and Eleventh streets, was sold to Miss Dowling, of near Hopkins. The sale was made through Holmes & Wolfert.

(You Men Who Pay The Advertising Bills)

Daily Democrat-Forum

Is the Chosen Messenger of Experienced Advertisers

Shrewd and experienced advertisers have found that the DEMOCRAT-FORUM with its Big "Quality" circulation is the direct and often exclusive messenger into the homes of consumers in Maryville and the entire Nodaway County.

Just how much the DEMOCRAT-FORUM exceeds any other newspaper in this section in actual merited, paid and consistent advertising is a vital business investigation that every advertiser should realize. The DEMOCRAT-FORUM carries thousands of lines more local advertising than any other newspaper in this section. (This excludes cheap "Special Page" advertising designed to fool the inexperienced advertiser and "Trade Out Propositions" which amount to giving some merchants cheaper rates than others). The DEMOCRAT-FORUM has not stooped to this practice. Home merchants use thousands of lines more consistent advertising with this paper than in any other.

And another remarkable feature and record of the DEMOCRAT-FORUM is that it carries more lines of advertising placed by the great national agencies than ALL THE NODAWAY COUNTY NEWSPAPERS COMBINED.

The Remarkable Guaranteed "Quantity and Quality" Circulation of the DEMOCRAT-FORUM is The Reason For This Exclusive Choice as an Advertising Medium

Home Merchants Advertising

Many home merchants use the DEMOCRAT-FORUM exclusively as the medium through which to sell their merchandise. Home merchants use thousands of line more advertising placed on the merits of the superior quantity and quality circulation of the Democrat-Forum than in any other newspaper in this section. They do this not only because they know that Democrat-Forum circulation is by far the greatest but also of the highest quality having no contest or premium circulation but all paid legitimate circulation.

Further still each home merchant KNOWS that he gets the same fair rate as any other merchant not being forced into trading out his advertising bill. And again he is not called upon by the Democrat-Forum to contribute to "Special Page" advertising meant primarily to fool the inexperienced advertiser, and which also cheapens other advertising run with it.

Great Agency Advertising

The great advertising agencies who place national advertising to Boost the sales of the local merchant place practically all of the newspaper advertising in Nodaway county in the Democrat-Forum exclusively. In fact this newspaper carries more of this great agency advertising than the total combination of fourteen other newspapers in this section. Remarkable you say.

Yes but these great agencies pay some of their space buyers as high as $25,000 a year. And such experts as these KNOW that the Democrat-Forum decisively beats, in fact, beats all circulation in its field. These advertising experts pay little or nothing for premium or contest circulation and they KNOW that the Democrat-Forum has none of this.

"Quality and Quantity" Circulation

DEMOCRAT-FORUM advertising gives by far the highest returns on this account. Shrewd and experienced advertisers who want the greatest returns for their money KNOW this.

The circulation of the DEMOCRAT-FORUM is relatively larger than that of any daily newspaper in the State of Missouri, when population of territory covered is considered. In fact the DEMOCRAT-FORUM has a larger paid, quality, no contest, no premium circulation than any other daily newspaper in the state in cities under 18000 in population.

BURLINGTON JUNCTION POST.

S. S. Webb was exhibiting a sample of Sudan grass that he raised on his place southeast of Burlington Junction. Some of the grass was six feet tall and the field will soon be ready for a second cutting. Sam sowed two acres to this grass, using about twelve pounds of seed on one acre and thirty pounds on the other. The acre that had the small amount of seed on it did not produce well, while that with the thirty pounds flourished like the green bay tree. It is said to be very good feed for stock.
